

April 13, 2007

Doug,

Thank you for the update of the impressive activities and progress the VMB are making at Walking Purchase Park. Tom Gettings has also reminded me of the contribution the VMB made in posting Wildlands Conservancy's South Mountain property in 2005. We look forward to working with VMB as the Lehigh Mountain Master Site Plan is created in 2007 and especially at South Mountain and the Trexler Nature Preserve where ADA trails and new single track mountain bike trails are being considered. Volunteer efforts like VMB are essential to the success of organizations like Wildlands, you are our heroes!

Thanks again,

Chris Kocher
President
Wildlands Conservancy
